## ABOUT:

Online Library Management System is an Automated Library System that handles the various functions of the library. It provides a complete solution to the library management software. The online Library Management System is classified into two parts Bar Code System and RFID System.

Library plays an important role in all schools and colleges, no educational institution can exist without Library Administration Software. It is an important part of every school and college and it helps the librarian to keep records of available books as well as issued books. Library Management System software helps in different ways by providing students the facility to learn, gather resources, promote group learning and improve knowledge and skills.
